BREDL Credo: We believe in the practice of earth stewardship, not only by our league members, but by our government and the public as well. To foster stewardship, the Blue Ridge Environmental Defense League encourages governmental and citizen responsibility in conserving and protection our natural resources. BREDL advocates grassroots involvement in order to empower whole communities in environmental issues. BREDL functions as a watchdog of the environment, monitoring issues and holding government officials accountable for their actions. BREDL networks with citizen groups and agencies, collecting and disseminating accurate and timely information. BREDL sets standards for environmental quality and awards individuals and agencies who uphold these standards in practice.
