Pipeline
FACTS**

Short-term JOBS

Majority of jobs created only during construction phase. Many are skilled labor jobs that are hired from outside local community.
20 permanent jobs maybe created.

Environmental Factors:

- Methane gas leaks into groundwater and streams
- Potential explosions (high pressure)
- Disrupts streams and riverbeds
- 24/7 Toxic Air Pollution from compressor stations
- Destruction of miles of natural forest and habitat

Fracking Infrastructure & Support:

- Supports the destructive and dirty method of extracting natural gas
- Supports large sums of natural gas coming from fracking site
- Only gas and utility companies benefit
